INFORMATION CIRCULAR

(As at August 2, 2016, except as indicated)

Petrichor Energy Inc. (the “Company”) is providing this Information Circular and a form of proxy in connection with management’s solicitation of proxies for use at the annual general meeting (the “Meeting”) of the Company to be held on Monday, September 12, 2016 and at any adjournments. Unless the context otherwise requires, when we refer in this Information Circular to the Company, its subsidiaries are also included. The Company will conduct its solicitation by mail and officers and employees of the Company may, without receiving special compensation, also telephone or make other personal contact. The Company will pay the cost of solicitation.

APPOINTMENT OF PROXYHOLDER

The purpose of a proxy is to designate persons who will vote the proxy on a shareholder’s behalf in accordance with the instructions given by the shareholder in the proxy. The persons whose names are printed in the enclosed form of proxy are officers or directors of the Company (the “Management Proxyholders”).

A shareholder has the right to appoint a person other than a Management Proxyholder, to represent the shareholder at the Meeting by striking out the names of the Management Proxyholders and by inserting the desired person’s name in the blank space provided or by executing a proxy in a form similar to the enclosed form. A proxyholder need not be a shareholder.

VOTING BY PROXY

Only registered shareholders or duly appointed proxyholders are permitted to vote at the Meeting. Shares represented by a properly executed proxy will be voted or be withheld from voting on each matter referred to in the Notice of Meeting in accordance with the instructions of the shareholder on any ballot that may be called for and if the shareholder specifies a choice with respect to any matter to be acted upon, the shares will be voted accordingly.

If a shareholder does not specify a choice and the shareholder has appointed one of the Management Proxyholders as proxyholder, the Management Proxyholder will vote in favour of the matters specified in the Notice of Meeting and in favour of all other matters proposed by management at the Meeting.

The enclosed form of proxy also gives discretionary authority to the person named therein as proxyholder with respect to amendments or variations to matters identified in the Notice of the Meeting and with respect to other matters which may properly come before the Meeting. At the date of this Information Circular, management of the Company knows of no such amendments, variations or other matters to come before the Meeting.

COMPLETION AND RETURN OF PROXY

Completed forms of proxy must be deposited at the office of the Company's registrar and transfer agent, **Computershare Trust Company, Proxy Department, 100 University Avenue, 9th Floor, Toronto, Ontario, M5J 2Y1, by mail or by facsimile in accordance with the instructions set out in the form of proxy accompanying this Information Circular**, not later than forty-eight (48) hours, excluding Saturdays, Sundays and holidays, prior to the time of the Meeting, unless the chairman of the Meeting elects to exercise his discretion to accept proxies received subsequently.

NOTICE-AND-ACCESS

The Company is not sending this Information Circular to registered or beneficial shareholders using "notice-and-access" as defined under National Instrument 54-101 ("**NI 54-101**").

NON-REGISTERED HOLDERS

Only shareholders whose names appear on the records of the Company as the registered holders of shares or duly appointed proxyholders are permitted to vote at the Meeting. Most shareholders of the Company are "non-registered" shareholders because the shares they own are not registered in their names but instead registered in the name of a nominee such as a brokerage firm through which they purchased the shares; bank, trust company, trustee or administrator of self-administered RRSP's, RRIF's, RESP's and similar plans; or clearing agency such as The Canadian Depository for Securities Limited (a "**Nominee**"). If you purchased your shares through a broker, you are likely a non-registered holder.

In accordance with securities regulatory policy, the Company has distributed copies of the Meeting materials, being the Notice of Meeting, this Information Circular and the Proxy, to the Nominees for distribution to non-registered holders.

Nominees are required to forward the Meeting materials to non-registered holders to seek their voting instructions in advance of the Meeting. Shares held by Nominees can only be voted in accordance with the instructions of the non-registered holder. The Nominees often have their own form of proxy, mailing procedures and provide their own return instructions. If you wish to vote by proxy, you should carefully follow the instructions from the Nominee in order that your Shares are voted at the Meeting.

If you, as a non-registered holder, wish to vote at the Meeting in person, you should appoint yourself as proxyholder by writing your name in the space provided on the request for voting instructions or proxy provided by the Nominee and return the form to the Nominee in the envelope provided. Do not complete the voting section of the form as your vote will be taken at the Meeting.

NOBOs

The Company is sending the proxy-related materials for the Meeting directly to "non objecting beneficial owners" ("**NOBOs**"), as defined under NI 54-101. The name and address and information about NOBO holdings of securities have been obtained in accordance with applicable securities regulatory requirements from the Nominees holding on behalf of NOBOs. By choosing to send these materials to NOBOs directly, the Company (and not the Nominees holding on behalf of NOBOs) has assumed responsibility for (i) delivering these materials to NOBOs and (ii) executing the proper voting instructions of NOBOs.

OBOs

The Company does not intend to pay for Nominees to deliver the proxy-related materials and Form 54-101F7 to "objecting beneficial owners" ("OBOs"), as defined under NI 54-101. As a result, OBOs will not receive the Meeting materials unless their Nominee assumes the costs of delivery.

REVOCABILITY OF PROXY

Any registered shareholder who has returned a proxy may revoke it at any time before it has been exercised. In addition to revocation in any other manner permitted by law, a registered shareholder, his attorney authorized in writing or, if the registered shareholder is a corporation, a corporation under its corporate seal or by an officer or attorney thereof duly authorized, may revoke a proxy by instrument in writing, including a proxy bearing a later date. The instrument revoking the proxy must be deposited at the registered office of the Company, at any time up to and including the last business day preceding the date of the Meeting, or any adjournment thereof, or with the chairman of the Meeting on the day of the Meeting. **Only registered shareholders have the right to revoke a proxy. Non-registered holders who wish to change their vote must, at least seven days before the Meeting, arrange for their Nominees to revoke the proxy on their behalf.**

VOTING SHARES AND PRINCIPAL HOLDERS THEREOF

The Company is authorized to issue an unlimited number of common shares without par value (the "shares"), of which 31,978,809 shares were issued and outstanding as at August 2, 2016. Persons who are registered shareholders at the close of business on the record date, August 2, 2016, will be entitled to receive notice of and vote at the Meeting and will be entitled to one vote for each share held. The Company has only one class of shares.

To the knowledge of the Directors and executive officers of the Company, no person beneficially owns, controls or directs, directly or indirectly, shares carrying 10% or more of the voting rights attached to all shares of the Company, except the following:

- (i) was the subject, while the proposed Director was acting in the capacity as Director, CEO or CFO of such company, of a cease trade or similar order or an order that denied the relevant company access to any exemption under securities legislation that was in effect for a period of more than 30 consecutive days other than:

- A) *Jurgen Wolf*, who was a Director of TAE while that company was subject to:
- 1) a Cease Trade Order issued August 20, 2008 by the British Columbia Securities Commission against TAE (the "TAE BC CTO") for failure to file annual oil and gas disclosure prescribed by National Instrument 51-101 *Standards of Disclosure for Oil and Gas Activities* ("NI 51-101") for the years ended April 30, 2006 and 2007. TAE subsequently brought all of its annual continuous disclosure filings up-to-date, and the TAE BC CTO was revoked on November 19, 2008;
 - 2) a Cease Trade Order issued August 21, 2008 by the Alberta Securities Commission against TAE (the "TAE Alberta CTO") for failure to file annual oil and gas disclosure provided by NI 51-101 for the year ended April 30, 2007. EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

The main objective of the Company’s executive compensation program is to attract, retain, and engage high-quality, high-performance executives who have the experience and ability to successfully execute the Company’s strategy and deliver value to our shareholders.

The objectives of the Company’s executive compensation program are as follows:

- (i) compensate executives competitively for the leadership, skills, knowledge, and experience necessary to perform their duties;
- (ii) align the actions and economic interests of executives with the interests of shareholders; and
- (iii) encourage retention of executives.

There is no formal compensation committee, the independent members of the Board, being Richard Switzer and Jurgen Wolf (the “**Independent Directors**”) annually review and set remuneration of executive officers. The Independent Directors determined that the executive compensation program should be comprised of the following elements:

- Base Salary – to compensate executives for the leadership, skills, knowledge and experience required to perform their duties; and
- Long-term Incentive Plan – to retain talented executives, reward them for their anticipated contribution to the long-term successful performance of the Company and align them with the interests of shareholders. The plan currently consists only of incentive stock options.

Process for Determining Executive Compensation

To determine compensation payable, the Independent Directors generally review compensation paid for directors and CEOs (or persons acting in a similar capacity to CEO, such as Presidents) of companies of similar size and stage of development in the oil and gas industry and determines an appropriate compensation reflecting the need to provide incentive and compensation for the time and effort expended by the directors and senior management while taking into account the financial and other resources of the Company. In setting the compensation the Independent Directors annually review the performance of the CEO (or President) in light of the Company's objectives and consider other factors that may have impacted the success of the Company in achieving its objectives.

Compensation Policies and Risk Management

The Board of Directors considers the implications of the risks associated with the Company's compensation policies and practices when determining rewards for its officers. The Board of Directors reviews at least once annually the risks, if any, associated with the Company's compensation policies and practices at such time.

Executive compensation is comprised of short-term compensation in the form of a base salary (or management fees) and long-term ownership through the Company's Stock Option Plan. This structure ensures that a significant portion of executive compensation (stock options) is both long-term and "at risk" and, accordingly, is directly linked to the achievement of business results and the creation of long term shareholder value. As the benefits of such compensation, if any, are not realized by officers until a significant period of time has passed, the ability of officers to take inappropriate or excessive risks that are beneficial to their compensation at the expense of the Company and the shareholders is extremely limited. Furthermore, the short-term component of executive compensation represents a relatively small part of the total compensation. As a result, it is unlikely an officer would take inappropriate or excessive risks at the expense of the Company or the shareholders that would be beneficial to their short-term compensation when their long-term compensation might be put at risk from their actions.

Due to the small size of the Company and the current level of the Company's activity, the Board of Directors is able to closely monitor and consider any risks which may be associated with the Company's compensation policies and practices. Risks, if any, may be identified and mitigated through regular Board meetings during which financial and other information of the Company are reviewed. No risks have been identified arising from the Company's compensation policies and practices that are reasonably likely to have a material adverse effect on the Company.

Hedging of Economic Risks in the Company's Securities

The Company has not adopted a policy forbidding directors or officers from purchasing financial instruments that are designed to hedge or offset a decrease in market value of the Company's securities granted as compensation or held, directly or indirectly, by directors or officers. The Company is not, however, aware of any directors or officers having entered into this type of transaction.

The Company has not retained a compensation consultant during or subsequent to the most recently completed financial year.

The Company does not use a specific "benchmark group" to determine executive compensation levels.

Total compensation for executive officers includes base salary and long-term incentive stock options.

Base salary or management fees

The executive compensation is designed to encourage, compensate and reward senior management on the basis of individual and Company performance, in the short term and long term, while considering the fiduciary duties to the shareholders. The base fees are established through negotiation when an individual joins the Company and reviewed annually thereafter. The level of fees is determined based on the level of responsibility and the importance of the position to the Company.

Option-based awards

The Company's 10% rolling stock option plan (the "Plan") has been and will be used to provide share purchase options which are granted in consideration of the level of responsibility of the executive as well as his or her impact or contribution to the longer-term operating performance of the Company. In determining the number of options to be granted to the executive officers, the Board takes into account the number of options, if any, previously granted to each executive officer, and the exercise price of any outstanding options to ensure that such grants are in accordance with the policies of the TSX Venture Exchange, and closely align the interests of the executive officers with the interests of shareholders. The Directors of the Company are also eligible to receive stock option grants under the Company's stock option plan, and the Company applies the same process for determining such awards to Directors as with NEOs.

As there is currently no compensation committee, the Independent Directors of the Company have the responsibility to administer the compensation policies related to the executive management of the Company, including option-based awards.

Equity compensation plans not approved by security holders:	Nil	N/A	Nil
Total:	842,500 common shares	N/A	2,158,829 common shares

(1) Calculation based on total of 10% reserved for issuance under Plan (being 3,001,329) as at fiscal year ended December 31, 2015) less 842,500 options outstanding as at the fiscal year end.

Under the Company's Plan, options are exercisable over periods of up to 10 years as determined by the Board of Directors and are required to have an exercise price no less than the closing market price of the Company's shares on the trading day immediately preceding the day on which the Company announces the grant of options (or, if the grant is not announced, the closing market price prevailing on the day that the option is granted), less the applicable discount, if any, permitted by the policies of the Exchange and approved by the Board of Directors. Pursuant to the Plan, the Board of Directors may from time to time authorize the issue of options to directors, officers, employees and consultants of the Company and its subsidiaries or employees of companies providing management or consulting services to the Company or its subsidiaries. The maximum number of common shares which may be issued pursuant to options previously granted and those granted under the Plan is 10% of the issued and outstanding common shares at the time of the grant. In addition, the number of shares which may be reserved for issuance to any one individual may not exceed (without shareholder approval) 5% of the issued shares on a yearly basis or 2% if the optionee is engaged in investor relations activities or is a consultant. Under Exchange policy, all such rolling stock option plans which set the number of common shares issuable under the Plan at a maximum of 10% of the issued and outstanding common shares must be approved and ratified by shareholders on an annual basis.

The Plan contains the following additional provisions:

1. If a change of control (as defined in the Plan) occurs, or if the Company is subject to a take-over bid, all shares subject to stock options shall immediately become vested and may thereupon be exercised in whole or in part by the option holder. The Board may also accelerate the expiry date of outstanding stock options in connection with a take-over bid.
2. The Plan contains adjustment provisions with respect to outstanding options in cases of share reorganizations, special distributions and other corporation reorganizations including an arrangement or other transaction under which the business or assets of the Company become, collectively, the business and assets of two or more companies with the same shareholder group upon the distribution to the Company's shareholders, or the exchange with the Company's shareholders, of securities of the Company or securities of another company.
3. On the death or disability of an option holder, all vested options will expire at the earlier of 365 days after the date of death or disability and the expiry date of such options. Where an optionee

is terminated for cause, any outstanding options (whether vested or unvested) are cancelled as of the date of termination. If an optionee retires or voluntarily resigns or is otherwise terminated by the Company other than for cause, then all vested options held by such optionee will expire at the earlier of (i) the expiry date of such options and (ii) the date which is 90 days (30 days if the optionee was engaged in investor relations activities) after the optionee ceases its office, employment or engagement with the Company.

4. If pursuant to the operation of an adjustment provision of the Plan, an optionee receives options (the "New Options") to purchase securities of another company (the "New Company") in respect of the optionee's options under the Plan (the "Subject Options"), the New Options shall expire on the earlier of: (i) the expiry date of the Subject Options; (ii) if the optionee does not become an eligible person in respect of the New Company, the date that the Subject Options expire pursuant to the applicable provisions of the Plan relating to expiration of options in cases of death, disability or termination of employment discussed in the preceding paragraph above (the "Termination Provisions"); (iii) if the optionee becomes an eligible person in respect of the New Company, the date that the New Options expire pursuant to the terms of the New Company's stock option plan that correspond to the Termination Provisions; and (iv) the date that is two (2) years after the optionee ceases to be an eligible person in respect of the New Company or such shorter period as determined by the Board of Directors.
5. In accordance with good corporate governance practices and as recommended by National Policy 51-201 *Disclosure Standards*, the Company imposes black-out periods restricting the trading of its securities by directors, officers, employees and consultants during periods surrounding the release of annual and interim financial statements and at other times when deemed necessary by management and the board of directors. In order to ensure that holders of outstanding stock options are not prejudiced by the imposition of such black-out periods, any outstanding stock options with an expiry date occurring during a management imposed black-out period or within five days thereafter will be automatically extended to a date that is 10 trading days following the end of the black-out period.

Unless otherwise instructed, the proxies given pursuant to this solicitation will be voted for the re-appointment of DMCL, as the auditor of the Company to hold office for the ensuing year at remuneration to be fixed by the directors.

MANAGEMENT CONTRACTS

No management functions of the Company or subsidiary are performed to any substantial degree by a person other than the directors or executive officers of the Company or subsidiary.

CORPORATE GOVERNANCE DISCLOSURE

A summary of the responsibilities and activities and the membership of each of the Committees are set out below.

National Policy 58-201 establishes corporate governance guidelines which apply to all public companies. The Company has reviewed its own corporate governance practices in light of these guidelines. In certain cases, the Company's practices comply with the guidelines, however, the Board considers that some of the guidelines are not suitable for the Company at its current stage of development and therefore these guidelines have not been adopted. National Instrument 58-101 mandates disclosure of corporate governance practices which disclosure is set out below.

Independence of Members of Board

The Company's Board consists of four (4) directors, two of whom are not at present independent based upon the tests for independence set forth in National Instrument (“NI”) 52-110. Richard Switzer and

Jurgen Wolf are independent. Joe DeVries is not independent as he is the President and CEO of the Company and Richard Barnett is not independent as he is the Secretary and CFO of the Company.

Management Supervision by Board

The size of the Company is such that all the Company's operations are conducted by a small management team which is also represented on the Board. The Board considers that management is effectively supervised by the Independent Directors on an informal basis as the Independent Directors are actively and regularly involved in reviewing the operations of the Company and have regular and full access to management. The Independent Directors are however able to meet at any time without any members of management including the non-independent directors being present.

Participation of Directors in Other Reporting Issuers

The participation of the directors in other reporting issuers is described in the table provided under "Election of Directors" in this Information Circular.

Orientation and Continuing Education

While the Company does not have formal orientation and training programs, new Board members are provided with:

1. access to recent, publicly filed documents of the Company, technical reports and the Company's internal financial information; and
2. access to management.

Board members are encouraged to communicate with management, auditors and technical consultants; to keep themselves current with industry trends and developments and changes in legislation with management's assistance; and to attend related industry seminars. Board members have full access to the Company's records.

Ethical Business Conduct

The Board views good corporate governance as an integral component to the success of the Company and to meet responsibilities to shareholders. The Board has not formally adopted a Code of Conduct, but once it has, it will be posted on the Company's website.

Nomination and Assessment of Directors

The Board determines new nominees to the Board, although a formal process has not been adopted. The nominees are generally the result of recruitment efforts by the Board members, including both formal and informal discussions among Board members and the President and Chief Executive Officer. The Board monitors but does not formally assess the performance of individual Board members or committee members or their contributions.

Compensation of Directors and the CEO

The Independent directors are currently Jurgen Wolf and Richard Switzer. These directors have (or will have) the responsibility for determining compensation for the directors and senior management.

To determine compensation payable, the Independent Directors review compensation paid for directors and CEOs of companies of similar size and stage of development in the oil and gas exploration industry and determine an appropriate compensation reflecting the need to provide incentive and compensation for the time and effort expended by the directors and senior management while taking into account the financial and other resources of the Company. In setting the compensation, the Independent Directors annually review the performance of the CEO in light of the Company's objectives and consider other factors that may have impacted the success of the Company in achieving its objectives. Further information regarding director compensation appears under "Executive Compensation".

Board Committees

As the directors are actively involved in the operations of the Company and the size of the Company's operations does not warrant a larger Board of Directors, the Board has determined that additional committees (other than the audit committee) are not necessary at this stage of the Company's development.

Expectations of Management

The Board expects management to operate the business of the Company in a manner that enhances shareholder value and is consistent with the highest level of integrity. Management is expected to execute the Company's business plan

AUDIT COMMITTEE

PARTICULARS OF OTHER MATTERS TO BE ACTED UPON

A. Approval and Ratification of Stock Option Plan

The number of common shares which may be issued pursuant to options previously granted and those granted under the Plan is a maximum of 10% of the issued and outstanding common shares at the time of the grant. In addition, the number of shares which may be reserved for issuance to any one individual may not exceed 5% of the issued shares on a yearly basis or 2% if the optionee is engaged in investor relations activities nor is a consultant. Under Exchange policy, all such rolling stock option plans which set the number of common shares issuable under the Plan at a maximum of 10% of the issued and outstanding common shares must be approved and ratified by shareholders on an annual basis.

The purpose of the Plan is to allow the Company to grant options to directors, officers, employees and consultants, as additional compensation, and as an opportunity to participate in the success of the Company. The granting of such options is intended to align the interests of such persons with that of the shareholders. Options will be exercisable over periods of up to ten years as determined by the Board of Directors of the Company and are required to have an exercise price no less than the closing market price of the Company's shares prevailing on the day that the option is granted less a discount of up to 25%, the amount of the discount varying with market price in accordance with the policies of the Exchange. Pursuant to the Plan, the Board of Directors may from time to time authorize the issue of options to directors, officers, employees and consultants of the Company and its subsidiaries or employees of companies providing management or consulting services to the Company or its subsidiaries. The Plan contains no vesting requirements, but permits the Board of Directors to specify a vesting schedule in its discretion. The Plan provides that if a change of control, as defined therein, occurs, all shares subject to option shall immediately become vested and may thereupon be exercised in whole or in part by the option holder.
